

It's easier to live with AD/HD
when you have the
right support.

Whether you're dealing with AD/HD first-hand or you have a child or spouse that is, it has a way of taking over your life. But now, there's somewhere to turn to help you master the challenge—**AD/HD support groups** through **neuroAgility**.

We offer:

- **AD/HD Adult Support Group**
- **AD/HD Parent Support Group**
- **Support Group for Non-AD/HD Spouses and Partners**

There's never been a resource like this—a place to share your triumphs and tribulations and get support from people who know what you're going through. Our groups meet weekly for 10 weeks. Enrollment in each group is limited to 10 participants.
